## **EDUCATION**

Since ??.	2015	Center for Cellular Imaging and NanoAnalytics (C-CINA), Biozentrum, University of Basel <b>PhD Student, Neurobiology</b>
??.	2013 - ??.	2014 Lab of Jean Pieters, Biozentrum, University of Basel, Switzerland <b>MSc, Molecular Biology</b>
??.	2008 - ??.	2013 Complutense University, Madrid, Spain <b>Licentiate in Biology, Major in Animal Physiology and Biotechnology</b>

## **SELECTED AWARDS AND HONORS**

2014	Erasmus fellowship
2008	EF English Language fellowship

## **SUMMARY**

Paula Pérez Navarro started on 15<sup>th</sup> April, 2015, as a PhD student in Henning Stalberg's group. She studied Biology at the Universidad Complutense de Madrid (Licentiate in Animal Physiology and Biotechnology) and Masters in Molecular Biology at Biozentrum, University of Basel.

## **SKILLS**

Paula has been working with different mouse models using primary brain cells in order to investigate signaling pathways and neuron development. More recently, she is learning and using electron microscopy approaches as well as immunolabelling on plastic-embedded human brain samples.
